

The CE seminar provides a detailed view to the concept and requirements of the present Recreational Craft Directive 2013/53/EU

Attendees will be guided through the essential requirements of the Directive and the correlated ISO Standards. The seminar includes also a practical hands-on part. In addition, the seminar will cover topics for the export to US; thus USCG requirements and the NMMA certification scheme. The seminar is intended for all professionals in the recreational boating industry that need detailed information.

The long-time competence of the **IMCI Experts** guarantees an intensive guidance.

Further the location and organisation offers a great platform for networking and exchange.

The offered Programme:

- Basic principles of harmonization in EU
- Recreational Craft Directive 2013/53/EU
- ISO-Standards in general
- Deeper insight to some ISO standards
- Export to US: USCG and NMMA
